DEAR MAMA;

I hope this finds you in a good health as I express my gratitude toward everything and all the sacrifices you made for me. I cannot forget the day you sold your animals when I was back home for the school fees so that I could continue with my studies, the times you stayed up for the all night when I was sick and I can remember the first shoes you bought for me, it was not because you had much, but it was the unconditional love you had for me. Though sometimes I wronged you and I did not obey you still you never gave up on me, God may not have given me much but I am grateful that you are my mom .You made me change may prospective towards life as you brought me up and turned me into a better person.

I concluded this letter by thanking you for everything you have done since the day you gave birth to me, and I pray to God to reward you abundant with good health and the desires of you heart as you are of main what I am today.

Your loving son,
Matua Atayo Victor
